GENUINE FILTERS

Mining and Construction equipment requires superior filtration to
MAXIMISE PERFORMANCE AND RELIABILITY.

The Komatsu filter range includes: air, fuel, oil, hydraulic and air-conditioning filters.

ADVANTAGES OF GENUINE KOMATSU FILTERS

Larger filter area

More media folds

Corrugated media surface

Uniform mesh

Superior protection offered by patented filtration technology.

MAXIMISE PERFORMANCE

EFFICIENCY

- 2-10 micron rating
- Dual filter media (eco-white)

LIFE CAPACITY

- Longer filter media
- Stronger reinforced steel caging

FLOW RATE

- Less restriction = less pressure
- Stacked bypass filter media

SAVE WITH FILTER KITS

For standard service and maintenance intervals use the Komatsu **ALL-IN-ONE** filter kits.
